13+

Community engagements

23

Field activities

17

Institutional partners

Year in Review

During the year, the Foundation strengthened its focus on river-basin restoration, climate-smart livelihoods, evidence-led advocacy, and collaboration with Traditional Councils. Program delivery remained rooted in transparent governance and locally led action.

Program Priorities

- Environmental restoration and watershed protection
- Community leadership and youth participation
- Research for development and policy translation
- Sustainable agriculture and resilient livelihoods
